BEFORE YOU WATCH THE SHOW

This is a visual guide that introduces the characters and story of My Brother's a Genius. It is for anyone who wants to know the story beforehand and may find it useful.

About My Brother's A Genius

My Brother's a Genius tells the story of Daisy and Luke, neurodivergent twins who experience the world in very different ways. Daisy struggles to read and write and is labelled an 'idiot' whereas her brother Luke is labelled a 'genius'. The two grow up on a high-rise council estate with their mum and dad. My Brother's a Genius is about their relationship as they grow from children into young adults, and what it's like to experience the world through neurodivergence. There is a soundtrack playing throughout the show as well as sequences of song and spoken word. The sound is at loud level at times and audience members who are sensitive to sound may wish to bring ear defenders.

Relaxed Environment Shows

All performances of My Brother's A Genius will be performed within a relaxed environment and everyone is welcome. It means we understand that paying attention doesn't look the same for everyone. For many people, sitting still and quiet and never leaving their seat can be uncomfortable, painful, or impossible. So, at this show, you are welcome to move in your seat, sway, make noise, stim or whatever helps you focus and enjoy the show.
